(1A) Abusing the copyright system

RVVZ, abuses the copyright system on roblox and youtube to hide his grooming allegations and to gain more money and status.

Ryke Productions

RVVZ copyrighted The Rake and Criminality, along with his own username to facilitate copyright abuse - https://trademarks.ipo.gov.uk/ipo-tmowner/page/search?id=1862802&domain=1&app=0&mark=UK00003958296

RVVZ's company, Ryke Productions LTD - https://suite.endole.co.uk/insight/company/12122841-ryke-productions-ltd
^ 1 million dollars in assets with 200k$ in bank

Roman Trotman - Director of Ryke Productions LTD

“you had rvvz’s code there”
wrong, this place was a place i used to test an anti cheat for one of my games and the only asset used there was this which was taken from the roblox developer forum

(1C) Selling Skins + Stealing Assets

Rvvz and his developer team has stolen a lot of assets, including Skins from Counter Blox, CS:GO,CS2 And Team Fortress 2. And they also have a black market of criminality skins, where you can buy them with USD, which is against roblox's TOS.
(1CA) Stolen Skins:

CS2's Version (Bunsen Burner) **Criminality's Version**

CS2'S Version **Criminality's Version**

Witch king from LOTR **Necromancer from Criminality**

Also, Kill Counters
Strange Shotgun from TF2 **Killtrack from Criminality**

Oh, and dont even get me started on the stolen sounds.

Criminality Infection Sounds

Criminality Casual / Standard Sounds and where they are from

Team fortress 2 Death Screams (Used in regular criminality)

COD Zombies Sounds (Used in Infection Mode)

(1CB) Selling Skins for USD

In the recent 2.0 update, Criminality added Trading and weapon skins and also created a new official community called Criminality Trading.

So, you would think this community is like scrap.tf or skinsmonkey.com which is just a fan made community made for traders only, BUT

This community is made officially by the criminality staff team and they let people pay for ingame skins via USD. which is against roblox's TOS, yet roblox still has RVVZ as verified and has not taken any action whatsoever.

Update on the DMCA situation: So we did some digging.
The only assets in Whispering Pines that got struck was the game's icons, thumbnails & name. Why? That last one. The name.
RVVZ has trademarked "The Rake" meaning it was within his right to DMCA just for that alone. >>

However here's what I find unfair despite that; the trademark/copyright wasn't even fully registered until February 16 of THIS YEAR. It was received on the 19th of September but not made official until Feb 16.
..The Rake Whispering Pines was created + released in 2022. :/

RVVZ is just greedy, I don't understand how he can even copy right claim the rake when it's a public meme lol.

My thoughts is what about the games that he would be able to strike trademarked or not?
I can find over 10 games that blatantly, shamelessly use saveinstanced TRR models, use the name 'The Rake' yet my game that has nothing stolen, just a name including 2 keywords?

Al4n :) Today at 1:25 AM
So regarding Whispering Pines.
Legally this was a just takedown given we infringed on the trademark 'The Rake' despite the trademark being registered *after* the games creation. Also the fact that the game was fundamentally too similar. I wouldn't call it an abuse of copyright, I'd call it just a mere example of greed given the amount of games that do straight up steal from The Rake Remastered and go unpunished but remain up due to the lack of popularity/concern. Even then, it's not our place to assume and judge. + I'm glad the game was taken down.
You can look through my public history since the takedown and see that I have held the same exact stance from the first second, and that a huge part of my cause has been to not harass, or attempt to defame RVVZ.

soo the twitter screenshots of you saying that it was unfair are real right?
Al4n :) Today at 1:28 AM
Yes they are, I don't see where I claimed it was unfair. But it is real yes.
Okay, nevermind I did say it was unfair. My bad
Nonetheless, Whispering Pines is over and really none of my concern.
Fair or not, life never is. You gotta count on it not being fair, your strength is in overcoming.

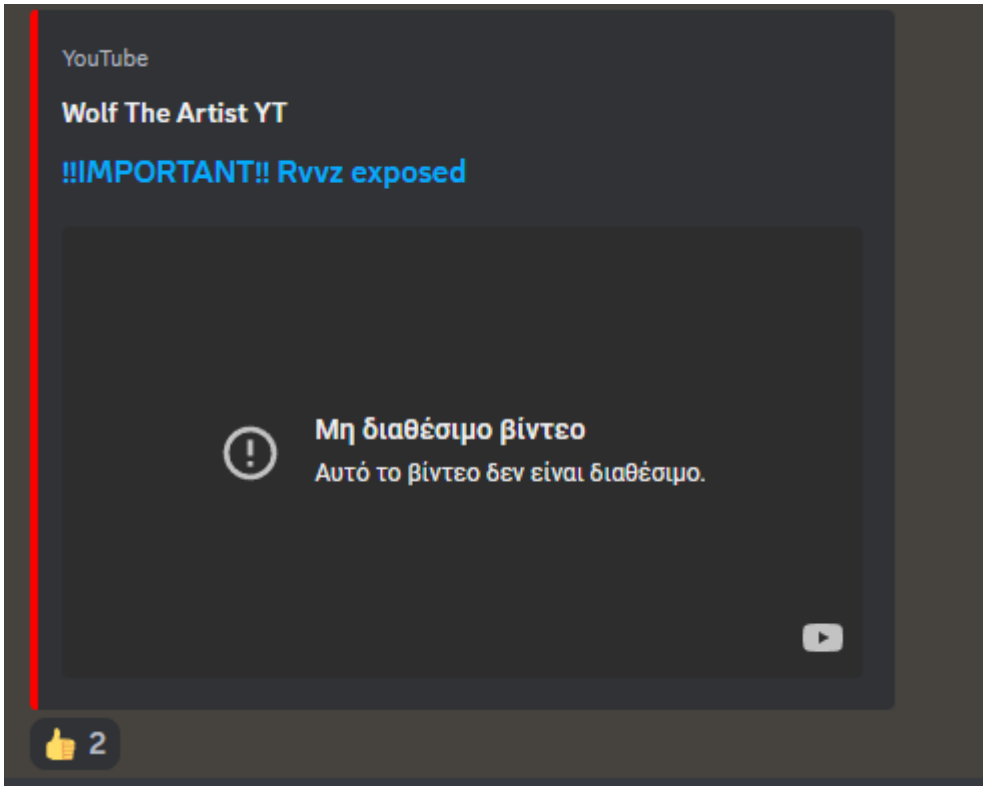
(1E) Copyfrauding Expose Videos



Meaning of Copyfraud :

https://en.wikipedia.org/wiki/Copyfraud

(The text is greek, translated, it says that the video is unavailable, because it was taken down by RVVZ’s legal team)
This video was about RVVZ’s Grooming.

(1F) Blackout’s Termination

ALSO, A GAME A LOT OF YOU KNOW ABOUT…
LET ME PRESENT TO YOUUUUU…

BLACKOUT

Yes. Blackout was indeed deleted by RVVZ's legal team due to it being similar to criminality when it launched

"But, RVVZ was seen in some of the recent teasers for blackout, he surely didn't dmca it"
Thats where you are <u>WRONG</u>

When blackout was released, it grew a lot in a very small time, and a lot of players from criminality were hopping over to blackout since criminality got dry as hell.
ALSO because it was a criminality inspired game, RVVZ and his legal team decided to DMCA it, so that RVVZ Stops players from leaving his games.

BUT.
When blackout released their teasers, RVVZ liked the game, and decided to assist them. So far, the creators of blackout have not come forward about the situation.

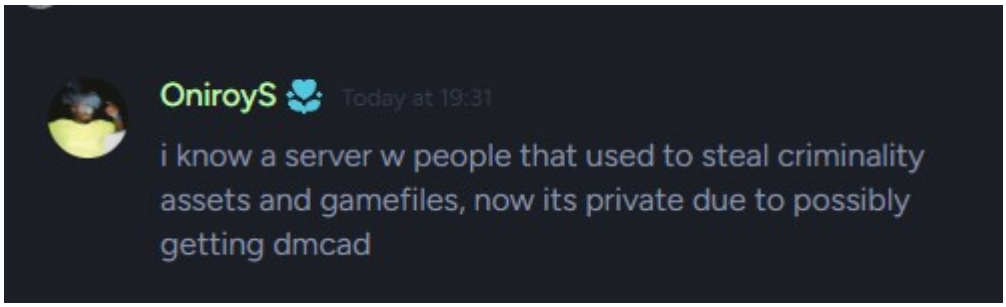
Finally, its time for the second most important chapter of this whole document.
Which depicts the <u>lies</u> and the <u>illegal and shady past of</u> Reshape, a roblox criminality admin and close friend of rvvz who tried to accuse me of

defamation, while he has a shady past of exploiting, selling roblox accounts, and cookie loggers.

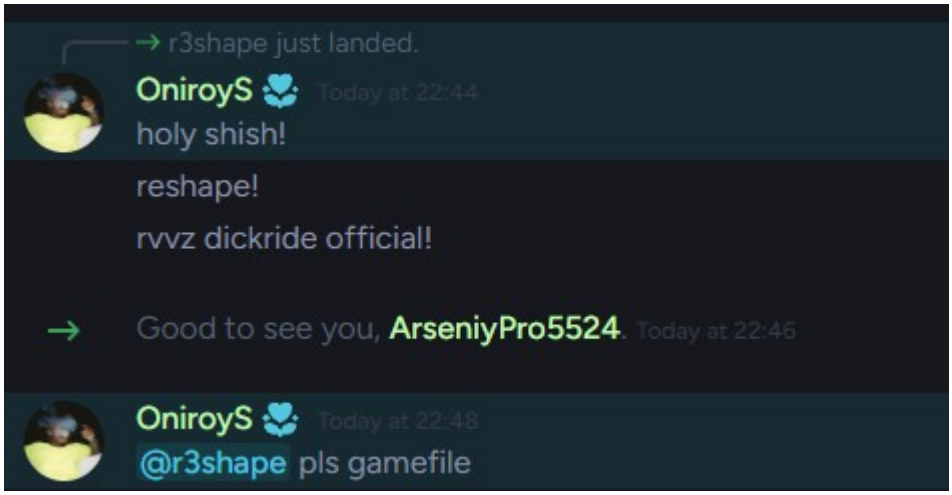
(2A) Reshape’s Response to the RVVZ Allegations

When i got on twitter, pinging Schlep and Ruben sim, it got a lot of traction, and it reached reshape, a moderator for rvvz’s game, criminality which responded to it with the following message

“No lifer who spends his time illegally uploading and distributing assets from Roblox games via illegal Discord communities. Frustrated by his failures, he resorts to attacking and defaming the owner of Criminality with false accusations to incite hate from others.”
And also added these pictures to the response, which are real things i have said.



OniroyS Today at 19:31
i know a server w people that used to steal criminality assets and gamefiles, now its private due to possibly getting dmcad



While the images of me saying all that are real, he brags about how i am “Frustrated by my failures” and that i “resorted to attacking and <u>DEFAMING</u> the owner of criminality”
Defaming means : damage the good reputation of (someone); slander or libel.
Accusing me of defaming rvvz while there is also video proof of the chapter 3 DMS

(2B) Reshape’s Illegal and shady past

The hypocrisy of his response can be easily viewed below, where an archive of his old posts, aliases, and connections to his Roblox account are made **in the following images:**

Vermillion, was a popular roblox cheating forum, which is now deleted, and replaced by a new version of it called v3rm.

And guess who was caught using the vermillion site.

Now, its time to dig into more sinister stuff…

(3) RVVZ’s Grooming

Alright. Time for the real reason I am making this expose document.

The Grooming Allegations

First, lets start off with his dms with Alpharose. A Minor who is 16 years old.

There is a whole pdf consisting of over 450+ Pages of RVVZ talking to her, but we are going to be covering the parts where he got out of hand.
With that out of the way, Let's start.

(3A) Age of Alpharose and RVVZ

First, His age and alpharose’s age.

He casually lies about his age but we got a lot of proof to prove that he was 18+ at the time since he kept saying he was born in 1995 in his dms with alpharose.
Also, He has trademark / copyright (See section 1A) which the law for it is explained here:

In the USA / UK, copyright protection automatically arises the moment an original work is fixed in a tangible medium of expression. This means that as soon as a minor creates a work (like a story, song, or painting), they own the copyright to it.

REALLY IMPORTANT:

In the UK, **a minor cannot independently register a trademark** due to legal limitations and typically requires a guardian to apply on their behalf. For copyrights, minors automatically own the rights to their creations, but legal actions or agreements related to enforcing or monetizing the copyright often require a guardian's involvement. Minors generally lack the capacity to enter into binding contracts or manage intellectual property independently.
